## interpack 2026: More Important Than Ever

Artificial intelligence, innovative materials, new functionalities and future skills: the major themes of transformation in the industry won't wait. At interpack 2026 in May, visitors will gain valuable insights and make important connections. Market leaders from every stage of the value chain are preparing to attend. The ticket shop is also open now.

TM  
Messe Düsseldorf

Anticipation is growing as interpack reaches the next milestone on the way to its 2026 edition, which will take place from 7 to 13 May. Around 2,800 exhibitors from all over the world are preparing to showcase their latest innovations in Düsseldorf, setting important trends for the future of a globally connected industry.

“interpack 2026 is more important than ever,” says interpack director Thomas Dohse. “Against the backdrop of profound transformation across many sectors, a wide range of topics are on the agenda, including AI, automation, new regulations, the need for future skills, and innovative materials. Now is the time to take action together.”

### Global Dynamics, Challenges and Opportunities

Due to population growth, rapid urbanisation, rising incomes and changing consumer behaviour, the processing and packaging industry is in high demand now and will continue to be so in the future. At the same time, however, companies face major challenges: raw materials are limited and expensive; regulations are becoming increasingly complex, creating an enormous administrative burden; supply chains are uncertain; skilled labour is scarce; and the pace of innovation is high. Added to this are geopolitical risks.

“In such a dynamic market situation, a global summit like interpack is a central source of impetus and therefore of particular value,” says Richard Clemens, Managing Director of the Food Processing and Packaging Machinery Association within the VDMA. “Here, solutions are presented that contribute to conserving resources, making processes more efficient, and securing long-term competitiveness along the entire value chain. Those who want to actively shape change need innovative technologies and a smart strategic orientation because only in this way can ecological and economic challenges be successfully overcome.”

The outlook is positive, particularly in the core markets of food and pharma. In 2024, global sales of packaged food reached 872 million tonnes, and this figure is expected to rise by 11.1 % to 968 million tonnes by 2029. The pharmaceutical market is also growing, with an increase in production value from €1.9 trillion in 2024 to €2.4 trillion projected by 2029.

#### **These exhibitors will be there**

The exhibitors at interpack 2026 recognise the potential of personal encounters for their business. Among the approximately 2,800 companies from over 60 countries, many market leaders will be presenting impressive displays. In the confectionery and bakery sector, for example, Aasted, Sollich, Theegarten-Pactec and SACMI Packaging & Chocolate will be present. This sector will span Halls 1, 3 and 4.

The pharmaceutical and cosmetics industries will also find important

partners at interpack, with companies such as IMA Industria Macchine, the Marchesini Group and OPTIMA showcasing their portfolios in Halls 15 to 17.

Across six halls (11–14 as well as 5 and 6), the extensive exhibition area for food, beverages, consumer goods and industrial products will see companies including the COESIA Group, Duravant, Gerhard Schubert, Ishida, KHS, Kronen, MULTIVAC, Syntegon Technology and ULMA Packaging set benchmarks in automation, efficiency and sustainability.

Halls 7, 7a, 8a, 9 and 10 play a central role for the industry at interpack. Around 1,000 exhibitors will present materials and finished packaging products there. With its cross-industry offering of packaging materials, packaging means and packaging auxiliaries, this segment is the world's largest trade fair for packaging materials. Companies such as BERICAP, Jokey, Metsä, Sappi Europe and SCHÜTZ will be present.

Bluhm Systeme, Domino Printing Sciences and Totani will be showcasing labelling and marking technology in Halls 8a and 8b.

#### **Services for visitors**

The interpack exhibitor and product database is now live, offering visitors the ideal tool to prepare for their trade fair experience. Even before arriving in Düsseldorf, attendees can explore companies, discover products and innovations, and plan their visit efficiently. At present, all main exhibitors are already listed, with co-exhibitors being added on an

ongoing basis to ensure the most up-to-date overview.

The ticket shop has also been open since 1 October. Visitors to the website will find comprehensive information on preparing for the trade fair, as well as travel and accommodation options. The new hotel service provides a clear overview of accommodation options for interpack, making comparisons easier.

During the trade fair, MyOrganizer and the interpack app will help visitors plan and navigate on site.

interpack is already engaging the industry through its digital channels with analyses, trends and insights. This means that exhibitors and trade visitors alike can benefit from the interpack community's expertise all year round. The interpack magazine provides news, interviews and reports both at the trade fair and online throughout the year. Once a month, subscribers receive a newsletter containing the latest content. With 'Let's Talk Processing & Packaging', interpack also offers a concise LinkedIn newsletter that showcases the latest industry insights alongside content from interpack and the interpack alliance, connecting followers worldwide.

## *IBIE 2025 Marks Largest Show In Its 105-Year History*

The International Baking Industry Exposition (IBIE), the Western Hemisphere’s largest and most comprehensive baking event, returned to Las Vegas September 13–17, bringing together thousands of baking professionals, suppliers, and artisans. Once again, IBIE 2025 equipped the global baking community with the tools, knowledge, and connections to tackle the latest challenges and shape the future of the industry.

This year’s event brought together more than 1,000 exhibiting companies from across the globe, showcasing the latest advancements in technology, ingredients, equipment, and packaging solutions. The sold-out show floor reached a record 451,100 square feet — the largest in IBIE’s 105-year history, reflecting a 9% increase over the previous edition.

The show also hosted its largest education program ever, with more than 250 IBIEducate sessions and demos included free for all registrants. Programming ranged from AI and automation to formulation innovation and scaling SMBs — empowering businesses to thrive in an evolving marketplace. IBIE drew increased participation from Gen Z (+8%) and Millennials (+43%), reinforcing its position as the premier workforce development resource for the baking industry and a key driver in closing the skills gap.

IBIE Chair Jorge Zarate, global senior vice president of operations and engineering at Grupo Bimbo, acknowledged the realities behind this year's numbers, noting, "While baker attendance at IBIE was slightly lower — largely reflecting today's economic pressures and complexities in international travel — we saw strong performance in the number of baking companies participating, many of which chose to send leaner teams to manage costs. Even so, the energy on the show floor and the level of engagement were remarkable, underscoring that IBIE remains an essential event driving progress and continuity for our industry."

#### IBIE by the Numbers

IBIE 2025 delivered measurable impact across every dimension — from exhibitors and education to international reach.

- 1,005 exhibitors — including 484 new exhibitors
- 451,100 sq. ft. of sold-out exhibit space — a new record (↑9% vs. 2022)
- 250+ education sessions and demos included for all registrants
- Overall registration down just

4%, despite global economic and travel headwinds

- Baker attendance decreased 8% compared to 2022; yet the number of baking companies represented rose 5% compared to pre-pandemic levels.
- Attendees were vetted and highly qualified, with 91% identifying as purchasing decision-makers or influential in the process.
- 96 countries represented, including 27 official delegations.
- 28% of buyers were international, with 74% of those from the Americas — led by Mexico, Canada, Brazil, Guatemala, Colombia, and Peru.

#### Show Highlights and Competitions Coupe du Monde de la Boulangerie — Americas Selection

IBIE hosted international baking teams competing in Bakery, Viennoiserie, and Artistic Bread Showpiece categories. Teams from Brazil, Canada, Ecuador, Mexico, and the US brought world-class skill and creativity to the competition, with just two advancing to the world finals in Paris.

- First Place Winner: Team Canada
- Second Place Winner: Team USA

#### World Bread Awards USA

The "Oscars of Bread" returned to IBIE, with 12 categories showcasing a spectrum of bread styles from sourdough to bagels. A distinguished panel of judges evaluated baked goods live on-site in front of enthusiastic audiences, awarding standout loaves with trophies and a cash grand prize.

- Overall Winner: Guy Frenkel — Céor Bakery

To learn more about individual category winners, visit the IBIE website [HERE](#).

#### Panettone World Cup — Americas Selection

Debuting at IBIE 2025, the competition showcased top pastry chefs from across the Western Hemisphere in a festive contest celebrating the art and heritage of panettone baking. Winners, selected by an esteemed panel of judges, will advance to the global finals in Milan, Italy.

- Traditional Category Winners:
  - Martinez Jaime from the USA
  - Emmidio Iernia of Canada
- Chocolate Category Winners:
  - Flores Torres Wilson of Ecuador
  - Vielma Ammary Coromoto from the USA

### Creative Cake Decorating Competition

The Pillsbury Creative Cake Decorating Competition featured six elite teams competing across four categories: Wedding Cake, Rolled Fondant, Sculpted Cake, and Buttercream. The 20th edition of the contest brought together some of the industry’s most talented cake decorators, going head-to-head in a celebration of creativity and craftsmanship.

- Overall Winners: Sabrina Sigouin (La Belle Patisserie) and Sandra Major (Le Sucre au Fou)
- Wedding Category: Aaron McInnis and Juanita Tobin (Happy Belly Cakery)
- Fondant Category: Jean Schapowal (Cakes w Character) and Jesse Lesser (Jesse Lesser Cakes)

- Sculpted Category: Sabrina Sigouin (La Belle Patisserie) and Sandra Major (Le Sucre au Fou)
- Buttercream Category: Carlos Mendez and Agnieszka (Agnes) Mendez (Cakes by Carlos)

### BEST In Baking – Industry Awards

IBIE, in collaboration with Snack Food & Wholesale Bakery magazine, recognized more than 65 industry suppliers and bakeries that have achieved particularly notable milestones in sustainability, sustainable packaging innovation, sanitation, workforce development, plant efficiency and automation & robotics. In the sixth edition of this industry awards program, the following companies earned top honors in each of the respective categories and received an honorary plaque, onsite recognition and more. The 2025 BEST in Baking industry top-honors include:

- SUSTAINABILITY:
  - Ingredients Supplier: Puratos — Cubease dough conditioner
  - Equipment Supplier: Puratos — MECATHERM S.A. – Energy Recovery System combined with Hygro Control System
- [NEW] SUSTAINABLE PACKAGING INNOVATION:
  - Retail Bakery: JAMMPCO — The TA-DAA Box
  - Wholesale Bakery: KIND Snacks – Paper Wrapper Pilot

- Supplier: Ardent Mills – Stretch Wrap Reduction Program
- SANITATION:
  - Wholesale Bakery: Nummies Bakery – Supreme Sanitation Program
  - Supplier: Goodway Technologies – PureBelt Modular Cleaning System
- WORKFORCE DEVELOPMENT:
  - Retail Bakery: Rising Above Bakery Inc. – Individuals with special needs as equal members in the bakery’s workforce
  - Wholesale Bakery: Craftmark Bakery – The Power of Lean Training to Maximize Operational Efficiencies and Employee Engagement
  - Supplier: Puratos – Calling for Caring: Our Commitment to Employee Wellbeing
- PLANT EFFICIENCY:
  - Wholesale Bakery: Bimbo Bakeries USA – Baked for Nature: Strategic Energy Management and Net Zero Carbon
  - Supplier: Intralox, LLC – ZeroSplice Technology
- AUTOMATION & ROBOTICS:
  - Wholesale Bakery: New Horizons Baking Co. – Smart Autonomous Bun Production System (SABPS)
  - Supplier: JLS Automation – Peregrine IS Robotic Cartoning System

For the full list of qualifiers, visit the IBIE website [HERE](#).

### IBIE 2025 Highlights

- The RBA Retail Bakers Center hosted live demos, competitions, and inspiring stories from leading retail bakers, pastry chefs, and cake artists — including Buddy Valastro, Duff Goldman, Paulina Abascal, and Iginio Massari, along with rising social influencers Greg Mason and Benjamin the Baker, plus international standouts such as Wu Tzu-Ching and Iván Zavala.
- The Rockin' Pint concert — featuring Wang Chung and Duff Goldman's band Foie Grock — energized attendees with live '80s music and networking opportunities.
- Chef Talks debuted as part of IBIEducate's international programming, spotlighting Latin American culinary expertise with presentations in Spanish.
- IBIE also provided real-time translation services for nearly all education sessions and demos, expanding accessibility for global attendees.

### Industry Leaders Reflect on IBIE 2025

"IBIE 2025 is a powerful reflection of our industry's energy and strength" said IBIE Chair Jorge Zarate, global senior vice president of operations and engineering at Grupo Bimbo, "The sense of innovation is unmistakable — seeing professionals from across the industry come together to share ideas, confront challenges, and set new standards for excellence makes this event truly special. I couldn't be more proud of how our community shows up."

Allen Wright, IBIE 2025 vice-chair and president of Hansaloy shares his enthusiasm. "The show

floor was buzzing with innovation, meaningful connections, and a true spirit of collaboration — proof that when our industry comes together, we move forward with greater energy and vision. IBIE's success this year is a testament to the dedication and passion at the heart of the global baking community."

"The camaraderie, passion, and knowledge-sharing at IBIE were truly palpable," said Amie Smith, IBIE committee member and RBA president. "The event fosters generosity in sharing expertise and creating lasting connections, supporting everyone from cottage bakers to large manufacturers. At its core, IBIE sets the gold standard

for education through IBIEducate and top-notch talent presenting at the RBA Retail Bakers Center."

### Looking Ahead

IBIE 2025 reinforced its reputation as the must-attend event for baking industry professionals worldwide, delivering unmatched business opportunities, education, and inspiration. As the industry looks forward to its next gathering, IBIE invites bakers, manufacturers, and suppliers to mark their calendars for September 10-13, 2028, when the Expo will once again unite the baking world in Las Vegas.

# FOOMA JAPAN 2026

## Becoming the Starting Point of Food Innovation! One of the World's Largest Comprehensive Food Processing Expo FOOMA JAPAN 2026

**The Theme is "The Shift is On."  
4 Days to Discover  
the Next Standard in Food Processing**

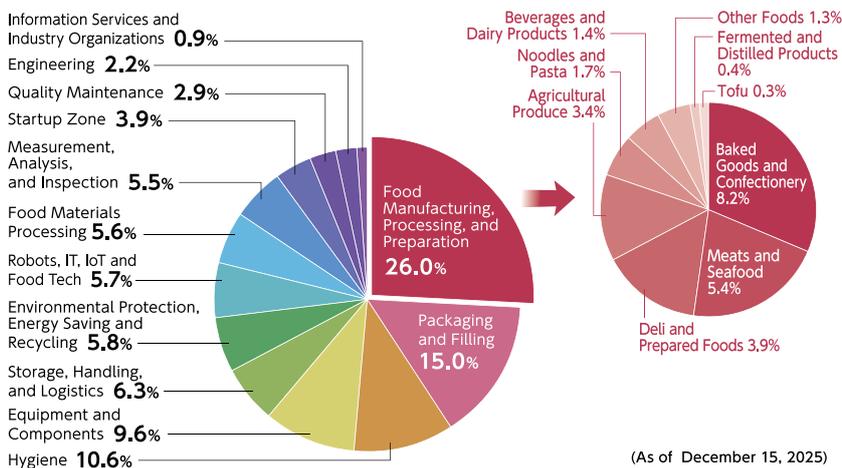

The World's Leading Food Processing Technology Expo, FOOMA JAPAN

2026, is coming to Tokyo Big Sight. In 2026 as well, attention from around the world will gather at Tokyo Big Sight as the "starting point of change" shaping the future of the food processing industry.

FOOMA JAPAN, which famous food manufacturers await every year, is one of the world's largest comprehensive food processing expos. The theme for the 2026 event, "The Shift is On." reflects the organizer's commitment to becoming a "starting point of change" that presents new value. It should become a place for real experiences where visitors and exhibitors face changes in food processing sites together and discover the "next standard."

The greatest advantage of FOOMA JAPAN is that it is a comprehensive exhibition where everything necessary for food factories is assembled, including

### Exhibitors by Business Sector

not only food processing and manufacturing but also packaging machinery, freezing and cooling equipment, foreign object detection and removal devices, and waste disposal systems; this is a feature unparalleled in the world. While overseas exhibitions often specialize in specific fields, if you visit FOOMA JAPAN, you can obtain everything related to food processing and discover the cutting edge of the next food innovation.

#### **A "Future Showcase of Food Factories" Where Over 110,000 People Gather**

The scale of FOOMA JAPAN is truly worthy of being called a "World Convention." The number of exhibitors is approximately 1,000 companies, exhibited products and solutions exceed 7,000, and the number of visitors typically exceeds 100,000 over 4 days. The sight of state-of-the-art food processing machinery lined up in the huge exhibition hall, Tokyo Big Sight (Japan's largest exhibition venue), is a masterpiece.

FOOMA JAPAN 2026 proudly

showcases the global strengths possessed by Japanese food processing machinery. The evolution of Japan's food processing industry is one of the leading in the world, and what makes this possible are Japanese food machines and equipment.

Japanese food processing machinery is high quality and reliable. Due to its highest level of durability, breakdowns are minimal, stable operation is possible, and they contribute to the stability of food production. Furthermore, significant effort is focused on automation and labor-saving; high-level automation technology greatly contributes to the improvement of production efficiency and reduction of labor costs. In terms of hygiene standards, it is at the world's highest level, and designs are made to correspond to thorough hygiene management. And there are many manufacturers who can perform fine-tuned custom designs tailored to the order so that food from countries around the world can be produced deliciously and efficiently.

#### **Must-See! FOOMA JAPAN 2026 - The Innovation Platform**

A further major characteristic of FOOMA JAPAN 2026 is its function as an innovation platform. What stands out particularly is the breakthrough in robotics, IoT, and food tech fields. It is these booths that point to the future map of food processing created by Japanese technology. In 2026, 52 companies are scheduled to exhibit in this field, and over 150 products will be displayed. Particularly, an innovation concentration area where advanced image detection equipment using AI and production management systems are lined up will appear, and it will likely be a must-see area for people from overseas.

In this innovation concentration area, the existence of startups proposing food innovation is also a major feature. In the 2026 Startup Zone, 36 innovators will exhibit and announce their latest ideas. Furthermore, academia from domestic and international universities and research institutions will announce food development research and future technologies in the Academic Plaza.

**Support Systems for Peace of Mind for Visitors from Overseas**

**FOOMA ID Reader:** At the venue, using your FOOMA ID lets you exchange company information without business cards and receive digital product catalogs. This speeds up product consideration and sharing with colleagues.

**GLOBAL INFORMATION:** A special booth "GLOBAL INFORMATION" will be established; when visitors inquire about machines they are looking for, appropriate exhibitors and products/equipment will be introduced in response to that inquiry. Furthermore, for those hesitant to travel to Tokyo, the official website offers extensive services to obtain information in advance.

If you want to know about FOOMA JAPAN 2026, please look at the following pages.

**Official website:** Introduces exhibited products and features from before the exhibition period.

**Email newsletter:** If you register, it will automatically notify you of highlights and exhibited products to watch.

**Social media:** Information is available on the YouTube channel "FOOMA JAPAN Ch." and Instagram, etc., and you can experience the atmosphere of FOOMA JAPAN via video. In the interview videos of overseas visitors, you can also see candid comments from visitors. Registration and following are highly recommended.

FOOMA JAPAN 2026 will become a "starting point of change" presenting new value and will be 4 days pointing to the future map of food processing. At this world-class comprehensive food processing exhibition, please

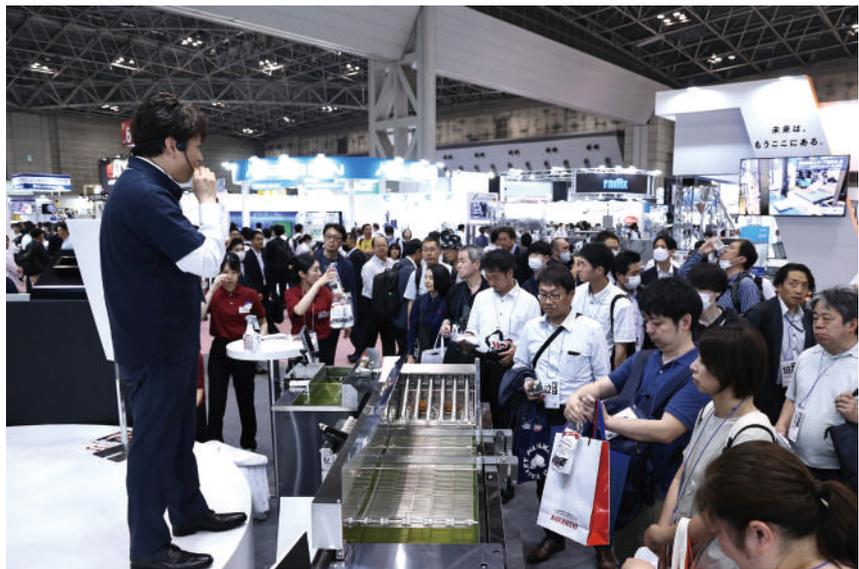

discover the "next standard."

Registration for FOOMA JAPAN 2026: It will commence at April 1st 2026. Please do not forget to register!

# EXPO PACK México

(June 2-5, 2026; EXPO Santa Fe, Mexico City, Mexico)

**E**XPO PACK México (June 2-5, 2026; EXPO Santa Fe, Mexico City, Mexico), produced by PMMI, The Association for Packaging and Processing Technologies, will be the most important and comprehensive meeting place in Latin America for the entire packaging and processing industry. Featuring the latest technologies in action, sustainable solutions, and a cutting-edge educational program, EXPO PACK México brings together packaging and processing solutions suppliers and end users from 40+ vertical markets. Approximately 750 exhibitors and 20,000 attendees are expected.

### Show Features

**Innovation Stage** – Exhibitor-led seminars, held on the show floor, present the latest industry developments, practices, and findings.

**Packaging & Processing Women’s Leadership Network (PPWLN)** – Returns to Mexico! The LATAM chapter of PPWLN will highlight the experiences of women leaders in the sector, providing a great platform to connect, share, and inspire.

**EXPO PACK Verde** – Discover exhibitors showcasing sustainable solutions, including new materials and technologies, such as biodegradable packaging, innovative reduction processes, and technologies that reduce carbon footprint.

**International Pavilions** – Pavilions feature exhibitors from around the world.

Show registration opens February 2026. For more information on EXPO PACK México, visit [expopackmexico.com.mx](http://expopackmexico.com.mx).

**June 2-5, 2026** | EXPO SANTA FE  
CDMX - MEXICO

# Innovation that connects industries and drives the future

## ***PACK EXPO International*** *(Oct. 18–21, 2026, McCormick Place, Chicago, Illinois, USA)*

**E**xperience the power of innovation in action at PACK EXPO International, where 48,000 attendees and 2,600 exhibiting companies come together to share packaging and processing solutions for 40+ vertical markets. Produced by PMMI, The Association for Packaging and Processing Technologies, the show takes place Oct. 18–21, 2026, at McCormick Place in Chicago, Illinois, USA, in what will be the largest packaging and processing show of the year in North America.

PACK EXPO International promises to deliver the latest innovative technologies, timely educational sessions, real-time problem-solving and idea-sharing across industries, and world-class networking opportunities. Packaging and processing professionals from every industry, for any product and for every project, can find solutions at PACK EXPO International.

## Notable Pavilions

PACK EXPO International continues to keep its hand on the pulse of the industry and provides exciting ways to present the latest topics in packaging and processing. This year will be no exception with the following notable pavilions.

### The Food & Beverage Processing Zone

In today's manufacturing environment, processing and packaging are coming together as an integrated system, making it more important than ever to bring comprehensive solutions under one roof. The Food & Beverage Processing Zone is a great place to start your search for front-of-the-line technologies such as homogenizing, heat treating, forming/sizing, and coating. Within The Food & Beverage Processing Zone, visitors will

discover products and services to help increase efficiency, achieve total system integration, and ensure employee safety.

### The Logistics Pavilion

Logistics is a crucial part of the product journey from manufacturer to consumer. The Logistics Pavilion will be the place to find targeted solutions related to the supply chain, including warehousing, fulfillment, distribution logistics services, and transportation providers.

### The Containers and Materials Pavilion

The Containers and Materials Pavilion will showcase the latest innovations in paperboard, glass, metal and plastic, flexible, and resealable packaging, as well as containers and materials.

### The PACKage Printing Pavilion

The PACKage Printing Pavilion will focus on the advantages of digital printing, showcasing the latest in cost-effective solutions for smart, short-run, on-demand, cost-effective, variable data, and personalized packaging.

### The Healthcare Packaging Pavilion

Life sciences is an important focus for PACK EXPO International, and now this key market segment is positioned as it should be — as an integral part of the show. This “show within a show” will house innovations for pharmaceuticals, biopharmaceuticals, nutraceuticals, and medical devices.

### The Reusable Packaging Pavilion

Sponsored by the Reusable Packaging Association, this pavilion will present sustainable packaging products and services to help reduce waste, cut costs, and gain supply chain efficiency. Explore reusable transport

packaging options and see innovative reuse solutions from top exhibitors. The Reusable Packaging Learning Center will be located within this pavilion.

#### The Confectionery Pavilion

The Confectionery Pavilion will feature the latest trends and technologies relating to aeration, batch refining, shaping, cluster production, and other processes. Within this pavilion, attendees can network, gain insights, and recharge at the Candy Bar Lounge, hosted by the National Confectionery Association.

#### Showcase of Packaging Innovations

Located within the Containers and Materials Pavilion, this exhibit displays award-nominated packaging.

#### Association Partner Pavilion

This pavilion houses leading associations dedicated to advancing the packaging and processing industry, offering significant resources, insights, and expertise in a central location.

#### Workforce Development Pavilion

This one-stop shop offers resources to strengthen and grow your workforce. Learn about PMMI U offerings, including popular training workshops. Meet students interested in careers in the industry. Schools will present mechatronics, packaging, and processing offerings.

### Educational Opportunities

#### Sustainability Central

This show floor destination takes an expansive look into packaging sustainability and what it means to brands, including expert speakers, interactive content, and a look at actionable, sustainable solutions in manufacturing, materials, and design. Attendees will hear from industry experts on a range of packaging sustainability topics and gain expertise about making their brands more sustainable.

#### Innovation Stage

Free, 30-minute seminars on breakthrough technologies and best practices are presented by

suppliers throughout each show day at three Innovation Stages. Stop by and learn something new.

#### Industry Speaks

Hear from experts in the PACK EXPO Partner Program, covering multiple industry verticals, as they address the latest hot-button topics and industry trends such as sustainability, remote access, supply chain solutions, augmented reality, and operational efficiency.

#### The Food & Beverage Processing Innovation Stage

The Food & Beverage Processing Innovation Stage will focus on the latest breakthroughs in processing highlighting emerging technologies, automation, and solutions designed to improve efficiency, safety, and sustainability.

#### Reusable Packaging Learning Center

Located within the Reusable Packaging Pavilion, learn from experts about strategies to implement a reusable packaging system that can improve material-

handling performance, reduce operating costs, create new economic value, and lower environmental impacts in your supply chain. Sponsored by the Reusable Packaging Association.

## Giving Back

### PACK gives BACK™

PACK EXPO's show benefiting the PMMI Foundation, PACK gives BACK, returns to Chicago in 2026. Guests will enjoy networking for a good cause.

### Silent Auction

A silent auction benefiting the PMMI Foundation will take place during the show. Past auction items have included sports and entertainment memorabilia, jewelry, and travel packages.

## World Class Networking

### Packaging & Processing Women's Leadership Network (PPWLN) Event

PPWLN serves to recruit, retain, and advance women's careers in packaging and processing. Each PACK EXPO, the PPWLN hosts a networking event addressing a timely issue facing women in the industry. For more information, visit [pmmi.org/ppwln](http://pmmi.org/ppwln).

### Young Professional's Networking Event

The Young Professionals Network will host an evening event providing a networking opportunity for young professionals. Stay tuned for more details at [pmmi.org/youngprofessionals](http://pmmi.org/youngprofessionals).

## Student Opportunities: Preparing the Next Generation

PACK EXPO International offers programs and activities to excite students about careers in packaging and processing.

### PACK Challenge

The PACK Challenge competition introduces students to real-world packaging scenarios. This competition for high school students requires collaboration, creativity, conception, process, design, build, programming, debug, marketing, and field installation knowledge – all put to the test in a competition format!

### The Amazing Packaging Race

The Amazing Packaging Race is designed to show university students exciting possibilities in the packaging industry. In this fun and educational event, teams from colleges and universities across the U.S. race around the show floor to complete tasks at the booths of participating exhibitors. Winners

will be announced on-site.

### Future Innovators Robotics Showcase

Robotics teams from Chicagoland high schools bring in robots they have designed and built and show them in action. Come watch these fun demonstrations and feel free to ask questions.

## Recognizing Excellence in Our Industry

The Technology Excellence Awards recognize exhibitors' most innovative technology that has never been seen before at a PACK EXPO trade show. All registered attendees are eligible to vote for favorites among the finalists selected in specific market segments.

Visit [packexpointernational.com](http://packexpointernational.com) to view floor plans, search exhibitors by keyword or product category, schedule meetings with exhibitors, and more. Registration opens February 2026.

# Gulfood

**Dubai becomes the global headquarters of food trade as Gulfood 2026 delivers 100% more scale, suppliers, business and innovation**

*The biggest F&B sourcing and innovation event returns with a historic dual-venue expansion Set to welcome 8,500+ exhibitors and visitors from 195 countries, unlocking new high-growth sectors, major partnerships and a transformative focus on AI and food-economy intelligence*

**D**UBAI – December 9, 2025: The global food and beverage industry is entering a defining era of change, powered by the convergence of health, technology, sustainability, transparent sourcing and AI-enabled performance<sup>1</sup>. With the global food & beverages market projected to hit \$11.37 trillion by 2030<sup>2</sup>, combined with the MENA region recording the world's fastest F&B growth rate<sup>2,3</sup>, businesses are seeking platforms that provide scale, intelligence and cross-border opportunity.

At the centre of this momentum stands Dubai, one of the world's most connected trade hubs and a powerhouse for logistics, innovation and future-driven food systems<sup>3</sup>. Against this backdrop, Gulfood 2026 emerges as the first and biggest sourcing event of the year, expanding across two mega-venues and opening a limitless landscape of opportunity, discovery and participation for the entire global food universe.

Gulfood 2026 will accelerate outsized scale to seize macro-trend advantage, with 8,500+ exhibitors, 1.5 million+ products and participation from 195 countries. The 31st edition is set to transform Dubai into the global headquarters of a connected, intelligent food economy. It will host multiple strategic Government and industry alliances including Agricultural and Processed Food Products Export Development Authority (APEDA) India, Brazilian Trade and Investment Promotion Agency (ApexBrasil), Business France, Canadian Trade Commissioner Service, Dubai Holding, ICEX Spain Trade and Investment, Meat & Livestock Australia, National Aquaculture Group (NAQUA) Kingdom of Saudi Arabia along with major industry powerhouses Americana, Barakat, BRF, Camelicious, Fresh Del Monte, Fage, JBS, Maersk, Monin and Oatly, as well as investors,

unicorns and a dynamic mix of buyers, distributors, wholesalers and innovative startups poised to scale into global brands.

Mark Napier, Vice President Exhibitions Department, Dubai World Trade Centre, stated: “Gulfood 2026 opens the global F&B calendar as the first and most influential sourcing event of the year setting the industry’s strategic direction. As the first major international event to activate the Dubai Exhibition Centre and Dubai World Trade Centre, we are delivering unprecedented scale and visibility. Expanding its reach across five new sectors, Gulfood becomes the only truly complete platform for the entire food and beverage ecosystem. An unmissable destination for every brand serious about growth, innovation and global market access. We look forward to welcoming forward-thinking partners, igniting a new era for the industry.”

### **100% More Scale: Two Mega Venues, One Global Food Universe**

For the first time in global food trade history, a sourcing event will run at full scale across Dubai World Trade Centre (DWTC) and the Dubai Exhibition Centre (DEC) at Expo City Dubai, expanding the show to 240,000 sqm and delivering the largest F&B trade footprint ever assembled.

This dual-venue expansion creates a seamlessly connected universe that enables buyers to source finished goods, fresh categories, commodities, national pavilions, innovations

and next-generation technologies in a single, streamlined journey. It serves as a strategic anchor to extract greater value from adjacent, high-growth domains across the food ecosystem, unlocking powerful new opportunities for buyers, suppliers and investors.

The 2026 edition will also feature new exhibiting nations, including: Ghana, Kazakhstan, Kuwait, Kurdistan Region, Luxembourg, Maldives, Qatar, Rwanda, Slovakia, Sweden and Uganda. Meanwhile, some of Gulfood’s most influential pavilions, Egypt, India, Italy, Saudi Arabia, Spain, Türkiye and the USA will expand to their biggest footprints to date. New exhibitors will come from across the globe and every sector of the food ecosystem, including Choco, Bustanica, Farm Frites, MSC, Ostrich Oasis and RANA.

### **Dubai Defines a New Global Model for Food Trade**

Dubai World Trade Centre will be home to high-growth sectors, retail powerhouses and startup innovation, across Beverages, Dairy, Fats & Oils, Meat & Poultry, Power Brands and two new sectors for 2026, Seafood and Gulfood Startups, reflecting the explosive expansion of the global F&B startup ecosystem.

Dubai Exhibition Centre (DEC) at Expo City Dubai will feature the world’s most innovative and impactful national pavilions, bulk commodity trade, strategic government delegations, procurement hubs and high-level

global dialogue. It is also home to major categories, including Extended National Pavilions, Rice, Pulses & Grains, World Food and three new sectors, Gulfood Fresh, Gulfood Grocery Trade and Gulfood Logistics.

Anchored by the global dialogue shaping economic, regulatory and trade frameworks, DEC will set the stage for the Gulfood World Economy Summit, an exclusive event convening CEOs, policymakers, investors, visionaries, leading scientists, academics and leaders, as well as those with the impetus to reengineer the world food economy.

**India as the Official Country Partner for Gulfood 2026**

With its F&B market projected to grow at a CAGR of 12.4 per cent through 2028, India enters Gulfood 2026 as the Official Country Partner, delivering its largest-ever presence with 600+ exhibitors and a powerful showcase of the world's most dynamic food production economy. Leading exhibitors will be in attendance, including Amul, Everest, MDH, Mother Dairy, Rasna and many more.

Together, these platforms will transform Gulfood 2026 into a powerful ecosystem for strategic networking, cutting-edge insights and commercially meaningful connections for stakeholders across the global food value chain.

For more information and to register at early bird prices, visit: [www.gulfood.com](http://www.gulfood.com)

**About Gulfood**

Gulfood 2026, taking place from 26–30 January, marks the 31st edition of the world's largest and most influential F&B sourcing and innovation event. With 8,500+ exhibitors, 195 countries, 240,000 sqm across Dubai World Trade Centre and Dubai Expo City Dubai, and five first-time sectors, Gulfood 2026 reinforces Dubai's position as the global headquarters of food trade and food intelligence.

FOOD AND BEVERAGE TRADE FAIR AND  
THE GATEWAY TO CHINA'S PREMIUM  
F&B MARKET

18-20 May 2026

SHANGHAI NEW INTERNATIONAL EXPO CENTRE (SNIEC)

If Asia's F&B market is your next  
move, SIAL Shanghai 2026 is  
where you must be!

This year, the annual Hotel and Catering Equipment Exhibition (HACE- Hotel Expo) took place from October 7-9, 2025, At Egypt International Exhibitions Center- Fifth Settlement. The HACE Hotel Expo is Egypt's largest and most prominent international trade fair, specializing in hotel supplies and furnishings, catering supplies, bakery, pastry, and ice cream equipment, cleaning equipment, Super Market equipment and all the necessities for small and large businesses across the hospitality and FMCG sectors.

With over 44 years of excellence to its name, the HACE Hotel Expo has further established itself as the official networking hub for the exchange of business, information, education, world-class technology and tools, supplies, and service within Egypt's hotel, hospitality, and catering fields.

The HACE'25 Exhibition was officially opened on the 7 October Ms. Samia Sami, Assistant Minister of Tourism and Antiquities for Tourism Companies Affairs, Also in attendance from the Ministry were Mr. Mohamed Haggag, Director General of the General Administration for Hotel Establishment Licensing, who's made the efforts to visiting all the booths and they expressed their appreciation for everyone's participation.

This year's HACE-Hotel Expo was held under the gracious auspices of the Egyptian Ministry of Tourism, Ministry of Trade & Industry, Egyptian Hotel Association, National Bank of Egypt and in powerful collaboration with The Egyptian Chef's Association, showcasing more than 450 represented companies from around the world. Participants exhibited their latest in HACE's six prominent exhibition categories, which are:

- HACE: The International Catering Equipment & Trading Laundry Exhibition
- Bakery Tec.: The International Bakery, Pastry equipment & Ice Cream Exhibition
- Inter. Food.: The International Food & Beverage Exhibition
- Furnishing Hot.: The International Furnishing Hotels Exhibition
- Clean Tec.: The International Cleaning equipment Exhibition
- Le Café: The International Coffee & Tea Supplies Exhibition

We received thousands of trade visitors who came to see what was new on the market for the Hospitality and catering sector.

**The HACE- Hotel Expo collaborated with The Egyptian Chefs Association had another round of successful competitions of its most important annual event for chefs.**

The culinary competitions were very popular, with more than 150

chefs participating. The annual ECA 'live cooking' show has acquired the status of being the platform for chefs to network and compete in a professional and inspiring environment, encouraging and improving the culinary experiences, skills, and abilities of young culinarians.

**Another highlight at Hace-Hotel Expo, A new and unique experience is launching as part of the HACE 2025 exhibition live cooking demonstrations in front of the public.**

For the first time in years, the live cooking demonstration platform returns to HACE 2025 with 10 interactive cooking demonstrations spread across the three days of the exhibition.

A selection of Egypt's most talented chefs, culinary innovators, and rising stars will be showcased alongside renowned international guest chefs. They will collaborate to present signature dishes, explore the latest trends, and share the techniques that define their culinary styles.

**The strongest coffee competition of the season BARISTA CLASH Competition at Exhibition Hace-Hotel Expo 2025.**

Barista competitions are extremely valuable and have their magic, and the Barista Clash provides an opportunity for baristas to showcase their expertise in a format that has not been explored in Egypt before, and we are excited to be at the forefront of this development.

This comes based on the exhibition's

position as one of the most prominent official communication centers and platforms for exchanging business, information, education, technology, tools, supplies and services in the fields of hotels, hospitality and restaurants in Egypt.

As a whole this year Exhibition HACE - HOTEL EXPO 2025 has been a great success and we plan to keep it up in our coming exhibitions.

HACE – Hotel Expo 2026 will be organized by Egyptian Group for Marketing (EGM) on 19 Till 21 October 2026 at Egypt International Exhibitions Center -Fifth Settlement

AUSTRALASIAN PROCESSING AND PACKAGING EXPO

## Join the Largest Processing & Packaging Industry Event in Australasia: APPEX 2027

The Australian Packaging and Processing Machinery Association (APPMA) is proud to announce the return of APPEX – Australasian Processing & Packaging Expo, the region’s most comprehensive showcase for the processing and packaging industry. Building on the success of previous editions, APPEX 2027 promises to deliver an even more dynamic platform for innovation, collaboration, and growth. The triannual event is returning to Melbourne, Australia, from March 16-19, 2027.

Since its transformation from AUSPACK in 2024, APPEX has become the definitive event for the entire industry, a showcase of the total processing and packaging sector with a focus on the latest technology and best practice. APPEX is the largest B2B trade show for the industry in Australia with the widest range of working machinery on the floor.

Attended by 10,000+ decision-makers across all major vertical markets, APPEX is the premium exhibition for all markets including meat, dairy, bakery, food service, beverage, logistics & materials handling,

pharmaceuticals and cosmetics, chemical and household items, and fast-moving consumer goods.

APPEX is set to take over all of the Melbourne Convention Exhibition Centre and will be divided into zones to help attendees find products and services of interest to them.

The event will offer new networking areas including food and beverage hubs designed to allow visitors and exhibitors to connect, network and to enjoy their day at the event.

APPEX will feature a series of educational initiatives and opportunities including Meat Industry Day led by Australian Meat Processor Corporation (AMPC). There will also be food and beverage-focused sessions as part of the Food Industry Solution Series and presentations on the latest topics and trends in packaging and packaging materials.

Run by industry, for industry, APPEX will represent all areas of processing & packaging including; machinery, ancillary equipment, materials and

packaging, food processing, logistics & materials handling, and industry services. For manufacturers looking to boost their production lines through new machinery, automation and technology, this will be the place to be.

### 80% of exhibition floor is already confirmed

With 94% of exhibitors satisfied with their number of sales leads and 9/10 exhibitors saying that APPEX is important to their business, it's clear that this event offers a valuable platform for businesses looking to sell equipment into the

Australian market.

By exhibiting at APPEX, you will:

- Create new sales leads and opportunities
- Capture interest from Australia's leading manufacturers
- Position your brand and business as an industry leader
- Network with your existing customers and make an impact on new ones
- Launch new products
- Demonstrate machinery

Book now to secure your exhibition stand and take advantage of the opportunity to create new sales leads, position your brand as an industry leader, and meet with existing customers. To learn more and stay updated on APPEX 2027, visit [www.appex.com.au](http://www.appex.com.au). Don't miss your chance to be part of the industry's premier event. Miss it and you won't have the opportunity again until 2030.

To join as an exhibitor, contact Abigail Ford at [aford@etf.com.au](mailto:aford@etf.com.au) or +61 3 9321 6750.

## ***Food & Hospitality Asia 2026: The Premier Platform for Food & Beverage and Hospitality Innovation***

**S**INGAPORE, 16 December 2025 – Food & Hospitality Asia (FHA), Asia’s leading international trade event for the food, hospitality, and HoReCa industries, is set to return from 21 to 24 April 2026 at the Singapore Expo. As the ultimate hub for connecting Asia’s food and hospitality sectors with global markets, FHA 2026 promises to deliver unparalleled opportunities for professionals and businesses to explore cutting-edge innovations, gain market insights, and forge valuable connections.

Celebrating its 48th edition, FHA 2026 will welcome over 80,000 international attendees and feature more than 2,750 exhibitors from 115 countries and regions, making it a must-attend event for industry leaders, innovators, and decision-makers.

### A Global Showcase of Excellence in Food and Hospitality

FHA 2026 will feature 18 dynamic segments, including the newly refreshed Food Service Technology segment, which highlights the latest advancements in foodservice operations as well as the refreshed Coffee, Tea & Bar Segment, expanded to include bar equipment and solutions, reflecting the growing trend of cafés and restaurants incorporating bar-style beverage offerings such as craft cocktails, cold brew taps, and mixology-inspired presentations.

Attendees can explore a diverse range of exhibitors, including industry leaders such as Ben Foods, DKSH, Euraco, Lim Joo Huat, Zac Meat & Poultry, Electrolux Professional, Fabbri, Rational, The Middleby Corporation, Valrhona Selection, and many more. Additionally, over 75 group pavilions will showcase the best of global food and hospitality innovation.

### Exciting New Initiatives and Partnerships

This year's event introduces several new initiatives and partnerships designed to enhance attendee experience and address emerging industry trends:

- **Region of Honour – European Union (EU):** FHA 2026 is proud to announce the European Union (EU) as the Region of Honour. This partnership will highlight the EU's culinary heritage, innovative food production, and commitment to sustainability. Attendees can look forward to

curated EU showcases, chef demonstrations, and networking events that celebrate the region's leadership in food and hospitality.

- **Singapore Seafood Pavilion:** Organized by the Seafood Industries Association Singapore (SIAS), this pavilion will spotlight fresh, live, frozen, and processed seafood, as well as aquaculture and value-added seafood products from global suppliers.
- **Future Forward:** A zone highlighting technology's impact on foodservice, hospitality, and retail, including a 4-day conference on technology integration challenges and opportunities, supported by a stellar steering committee.
- **Epicurean Gallery:** A curated platform spotlighting premium products daily, hosted by various companies or country groups. It combines exhibition and networking, bringing together culinary professionals, gourmet enthusiasts, and buyers to explore offerings, connect with brands, and build industry relationships
- **Young Chef Grand Prix:** Co-organized with the Singapore Chefs Association and Singapore Junior Chefs Club, this competition will nurture the next generation of culinary talent, targeting skilled individuals aged 25 and below.

### Competitions and Seminars to Inspire and Innovate

FHA 2026 will host a series of prestigious competitions, including:

- **FHA Bakery Challenge:** Organized in partnership with the Singapore Pastry Alliance, this competition will champion artisanal baking excellence.
- **FHA Dessert Challenge:** Co-organized with the Singapore Pastry Alliance, this platform will allow aspiring pastry chefs to showcase their artistry and dessert-making skills.
- **Asian Pastry Cup:** Returning as the official Asia selection for the renowned World Pastry Cup, this competition will bring together the region's top pastry chefs to demonstrate their craft.

Attendees can also participate in insightful seminars covering topics such as global market trends, food innovation, safety regulations, and sustainability. Highlights include the FHA Seminar on Global Market Trends and Trade and the Sustainable Summit, which will address critical issues like food security, sustainable agriculture, and supply chain resilience.

### Why Attend FHA 2026?

"FHA 2026 is more than just an exhibition—it's a transformative experience for the food and hospitality industry," said Ian Roberts, Vice President of Informa Markets – Asia "This event is where innovation meets opportunity, bringing together the brightest minds, the most cutting-

edge technologies, and the most influential players from across the globe. Whether you're looking to showcase your brand, discover the latest trends, or build strategic partnerships, FHA 2026 is the definitive platform to shape the future of food and hospitality. It's not just about staying ahead of the curve—it's about defining it."

### Hospitality, Food & Beverage at Informa Markets

Informa Markets' Hospitality, Food & Beverage portfolio includes a series of global in-person trade events and an online content platform Saladplate - aimed at fostering business relationships, enabling learning, and enhancing trade opportunities for the industry.

With several established events within the portfolio such as Hotelex Shanghai, Food&HotelAsia,

HOFEX, Fispal Food Service, and Abastur, the portfolio together offers an unparalleled audience reach across the world. Staging 35 live and digital events in major cities including Shanghai, Hong Kong, Singapore, Ho Chi Minh City, Seoul, Kuala Lumpur, Mumbai, Bangkok, Sao Paulo, and Mexico City.

Working alongside established industry partners, government bodies, and recognised professionals, the portfolio aims at bringing companies, individuals, and the

industry to the forefront of global business innovation by offering solutions and opportunities that meet today's business needs.

### About Informa Markets

Food and Hospitality Asia is organised by Informa Markets, a division of Informa plc. Informa Markets creates platforms for industries and specialist markets to trade, innovate and grow. We provide marketplace participants around the globe with opportunities to engage, experience and do business through face-to-face exhibitions, targeted digital services, and actionable data solutions. We connect buyers and sellers across more than a dozen global verticals, including Pharmaceuticals, Food, Medical Technology, and Infrastructure. As the world's leading market-making company, we bring a diverse range of specialist markets to life, unlocking opportunities and helping them to thrive 365 days a year.

# PROPAK ASIA

## Informa Markets Announces Landmark Move: ProPak Asia 2026 to Relocate to IMPACT Muang Thong Thani. Expands by 30% to Over 70,000 sqm, Aiming for Global Status by 2028 in the Processing and Packaging Industry Supported by Leading International Industry Partners

**M**r. Sanchai Noombunnam, Country General Manager of Informa Markets Thailand, highlighted Thailand's growing role and opportunities in the global food and beverage industry. According to Credence Research, a global market research and consulting firm, the value of the global food and beverage market is projected to grow from USD 6.2 trillion in 2024 to nearly USD 9.8 trillion by 2032. Key driving forces include shifting consumer behaviors, increasing demand for convenience and ready-to-eat foods, and a rising focus on health.

At a regional level, Asia-Pacific is the fastest-growing market, particularly in China, India, Thailand, and Vietnam. These changing consumption trends and advancements in food and beverage manufacturing continue to generate new products.

This year's ProPak Asia 2025 attracted over 2,000 exhibiting brands from 42 countries and welcomed more than 72,000 visitors globally, utilizing 55,000 square meters of exhibition space and generating over THB 5.5 billion in trade value. The event's

repeated success and growing demand from both returning and new exhibitors have exceeded the capacity of the current venue.

Therefore, ProPak Asia 2026 will relocate to the IMPACT Exhibition and Convention Center in Muang Thong Thani, a venue offering larger and more suitable facilities for future growth. The new venue provides enhanced accessibility via skytrain, private vehicles, and public transportation, and is conveniently located near airports and key industrial zones such as Chonburi, Ayutthaya, Pathum Thani, Samut Sakhon, and Samut Songkhram. This move aligns with ProPak Asia's vision to elevate itself into a global hub for the manufacturing, processing, and packaging industries.

ProPak Asia 2026 marks a bold step into a new era of boundless growth, with the goal of becoming the premier processing and packaging exhibition in Asia-Pacific by 2027 and a World-Class event by 2028. Already, 95% of the space for ProPak Asia 2026 was pre-

booked during ProPak Asia 2025, reaffirming industry confidence. The event will continue to showcase the latest technologies and innovations, connecting exhibitors, businesses, agencies, and attendees through ProPak Connect—a digital hub integrating global ProPak events, fostering collaboration across every dimension of the industry ecosystem.

Mrs. Luciana Pellegrino President of World Packaging Organization (WPO), acknowledged the continued growth of the packaging industry, which aligns with sectors such as food, beverage, pharmaceuticals, consumer goods, and e-commerce. The industry is expected to expand from USD 1.28 trillion in 2025 to USD 1.69 trillion by 2034. A major trend is the focus on sustainable and eco-friendly packaging, reflecting WPO's mission to promote science, technology, sustainability, and innovation in packaging. WPO recognizes ProPak Asia as a key partner and fully supports its transformation in 2026 as a stepping stone to becoming a truly global event.

Dr. Joseph Ross S. Jocson, President of the Asian Packaging

Federation (APF), emphasized the significance of the packaging sector in Asia-Pacific. The market is expected to reach USD 190.55 billion in 2025, with a CAGR of 4.98% from 2025 to 2033. The region, a global manufacturing hub especially in food and beverage, benefits from its large consumer base. Key trends to watch include smart packaging, the use of more sustainable materials, growth in premium and personalized packaging, and circular economy-driven design. APF has been a long-standing partner of ProPak Asia and is committed to supporting its ongoing development to benefit producers and stakeholders across the region.

Mr. Ali Badarneh, Chief Food Security and Food Systems Unit, Agri-Business and Infrastructure Development Department, United Nations Industrial Development Organization (UNIDO), Austria, stated that UNIDO, as a UN specialized agency promoting inclusive and sustainable industrial development, is proud to be a long-term strategic partner of Informa Markets and ProPak Asia. He affirmed UNIDO's strong support for ProPak Asia 2026 and beyond, aiming to drive innovation in manufacturing, processing, and packaging technologies. UNIDO also seeks to facilitate knowledge exchange among industry leaders, policymakers, and stakeholders to build resilient food systems and address urgent global challenges such as hunger, food loss and waste, and climate change. The organization believes this collaboration will help realize a more sustainable and inclusive future for food and packaging systems worldwide.

ProPak Asia 2026 is scheduled to take place from 10–13 June 2026 at the IMPACT Exhibition and Convention Center, Muang Thong Thani. For more information, please visit: [www.propakasia.com](http://www.propakasia.com).

## FOOD & DRINKS MALAYSIA BY SIAL

# Food & Drinks Malaysia by SIAL 2026 Expands Sector Coverage with Stronger Packaging and Processing Focus

As Southeast Asia’s food and beverage industry continues to scale in complexity and sophistication, demand is growing for integrated platforms that address the full value chain. Responding to this shift, Food & Drinks Malaysia by SIAL 2026 (FDM2026) returns with an expanded exhibition footprint and broader sector coverage, reinforcing its position as one of the region’s key international F&B trade events and a member of the global SIAL Network.

FDM2026 will be held from 21–23 July 2026 at the Malaysia International Trade & Exhibition Centre (MITEC), Kuala Lumpur. The upcoming edition is expected to feature over 600 exhibitors

and more than 18,000 attendees supported by additional exhibition halls to accommodate new and expanding segments.

Malaysia’s role as a regional production and distribution hub for halal-compliant food manufacturing continues to attract manufacturers, processors, and solution providers from across Asia, particularly those supporting compliance, traceability, and scalable production. For companies from Taiwan and North Asia, FDM2026 offers direct engagement with Southeast Asian buyers seeking packaging materials, processing equipment, automation solutions, and manufacturing technologies aligned with international and halal standards.

“The expansion of FDM reflects the industry’s growing need for platforms that connect finished products with the technologies behind them,” said Henri Tan, Exhibition Director, Southeast Asia at Comexposium Sdn Bhd. “Packaging and processing solutions are increasingly central to how food businesses manage quality, compliance, and operational efficiency across regional markets.”

A major development for 2026 is the expanded Packaging and Processing segment, bringing together suppliers of machinery, packaging materials, processing systems, automation, inspection, and related technologies. The segment addresses industry priorities including food safety, shelf-life management,

## MBAGA PERINDUSTRIAN NANAS MALAYSIA

material compatibility, segregation requirements, and traceability, all of which are critical considerations in halal-compliant manufacturing environments.

Innovation across the food value chain is further highlighted through SIAL Innovation, the globally recognised platform showcasing new product concepts, ingredients, technologies, and solutions. For packaging and processing players, the programme provides insight into evolving expectations for materials, formats, functional performance, and sustainability, particularly as regulatory and certification requirements continue to tighten across Asian markets.

FDM2026 also continues to

expand its portfolio of co-located events, including the Chocolate Show, a dedicated showcase focused on cocoa, chocolate, and confectionery. The presence of specialised segments reflects the show's broader strategy to deepen sector relevance while enabling cross-segment sourcing and collaboration opportunities between ingredient suppliers, manufacturers, and solution providers.

Additional highlights include culinary competitions, live demonstrations, industry forums, and structured business matching initiatives designed to support targeted sourcing, knowledge exchange, and commercial engagement across the F&B ecosystem.

With its expanded scale and strengthened focus on packaging, processing, and specialised food segments, Food & Drinks Malaysia by SIAL 2026 continues to evolve as a comprehensive regional trade platform supporting manufacturers, suppliers, and solution providers across Asia.

**A**LLPACK INDONESIA 2026 returns as a premier international exhibition in the packaging and manufacturing sectors, marking a significant milestone in its 25th year of excellence. Organized by Krista Exhibitions, ALLPACK INDONESIA 2026 will take place on 20–23 October 2026 at Jakarta International Expo (JIExpo), Kemayoran, Jakarta. For more than two decades, ALLPACK has evolved into a strategic platform that brings together cross-sector industry players from both domestic and international markets, while making a tangible contribution to the growth of national and regional industries.

As one of the most comprehensive industrial exhibitions in Southeast Asia, ALLPACK INDONESIA 2026 will showcase a wide range of cutting-edge innovations and technological solutions across the packaging, plastics, processing, printing, recycling,

and pharmaceutical sectors. The exhibition is designed to address the continuously evolving challenges of the global industry, including production efficiency, manufacturing digitalization, and the growing demand for sustainability and environmental responsibility.

ALLPACK INDONESIA 2026 will feature more than 1,500 exhibitors from 30 countries, targeting over 50,000 professional visitors from 54 countries. This scale of participation reflects the strong interest of global industry players in the Indonesian market, which is widely recognized for its significant growth potential—particularly in manufacturing, food and beverage, pharmaceuticals, and consumer goods.

The exhibition serves as a strategic meeting point for machinery and technology manufacturers, brand owners, distributors, industrial solution providers, associations, academics, and policymakers.

This cross-stakeholder synergy is expected to strengthen national industrial supply chains, encourage technology transfer, and create sustainable business opportunities with a broad economic impact.

ALLPACK INDONESIA 2026 is not merely an exhibition, but a symbol of consistency and commitment in supporting industrial development. For a quarter of a century, ALLPACK has both witnessed and driven industrial transformation, adapting to evolving technologies, regulations, and market demands.

Daud D. Salim, CEO of Krista Exhibitions, stated that ALLPACK INDONESIA has grown into a vital platform for the industry to introduce the latest innovations while forging long-term strategic partnerships “ALLPACK INDONESIA 2026 has become a platform that brings together innovation, technology, and cross-sector collaboration. This year, the number of exhibitors has

increased compared to the 2025 edition, reflecting strong optimism among industry players toward the potential of the Indonesian market and the Southeast Asian region,” said Daud D. Salim.

The increase in both exhibitor and visitor numbers demonstrates global industry confidence in Indonesia’s economic stability and its strategic role as a regional manufacturing hub.

Furthermore, Daud emphasized that the organization of ALLPACK INDONESIA 2026 also reflects Krista Exhibitions’ commitment to supporting the sustainable development agenda. Sustainability has become one of the exhibition’s key focuses, in line with global trends that require industries to take greater responsibility toward the environment and society “We want to ensure that the innovations and technologies presented at this exhibition not only deliver business value, but also generate positive impacts for the environment and society. Sustainability is no longer

an option it is a necessity,” Daud D. Salim added.

A wide range of environmentally friendly solutions will be showcased, including sustainable packaging technologies, recycled materials, energy efficiency solutions, and industrial waste management systems. In addition, the pharmaceutical and food processing sectors will feature technologies that support product safety, cold chain efficiency, and compliance with international standards.

One of the flagship programs of ALLPACK INDONESIA 2026 is the Business Matching Program, facilitated directly by Krista Exhibitions. This program is designed to connect manufacturers, distributors, and potential buyers from various countries through structured and effective business meetings.

The success of ALLPACK INDONESIA 2026 is strongly supported by the Ministry of Industry, the Ministry of Trade, and the Ministry of Tourism of the Republic of Indonesia. The exhibition is also supported by numerous national and international industry associations, including the Indonesian Packaging Federation (IPF), Indonesian Olefin, Aromatic, and Plastic Industry Association (INAPLAS), Indonesian Plastics Recyclers (IPR), Indonesian Food and Beverage Association (GAPMMI), Indonesian Pharmaceutical Companies Association (GP Farmasi Indonesia), The event is proudly supported by leading

industry associations, including the Pharma Materials Management Club (PMMC), the Indonesian Association of Various Weaving and Plastics Industries (GIATPI), the Asian Packaging Federation (APF), the Indonesian Can Packaging Producers Association (APKKI), Indonesian Cosmetics Companies and Associations (PPAK Indonesia), the Indonesian Herbal Medicine & Traditional Medicine Entrepreneurs Association (GP Jamu), the Indonesian Health Supplement Entrepreneurs Association (APSKI), the Indonesian Pulp and Paper Association (APKI), the Indonesian Inorganic Basic Chemical Producers Association (APKIDA), the Indonesian Inorganic Basic Chemicals Association (AKIDA), the Indonesian Cold Chain Association (ARPI), the Indonesian Association of Fishery Product Processing and Marketing Companies (AP5I), the Indonesian Meat Processors Association (NAMPA), the Indonesian Medical Devices and

Laboratory Equipment Companies Association (GAKESLAB), the Indonesian Logistics Association (ALI), the Packaging Development Federation (PDF); the Indonesian Graphic Companies Association (PPGI), the Indonesian Medical Device Manufacturers Association (ASPAKI), the Indonesian Soft Drink Industry Association (ASRIM), and the Indonesian Specialty Chemicals Industry Association (AIKKI) The Japan Food Machinery Manufacturers' Association (FOOMA), and the Development Bureau, Ministry of Commerce of the People's Republic of China.

ALLPACK INDONESIA 2026 invites all industry stakeholders to participate and become part of the transformation toward a more efficient, innovative, and sustainable manufacturing future. The exhibition is not only a business transaction platform, but also a space for knowledge exchange, inspiration, and cross-sector collaboration.

With the support of advanced technologies, global networks, and a strong commitment to sustainability, ALLPACK INDONESIA 2026 is expected to enhance national industrial competitiveness and expand Indonesia's role within the global supply chain.

Industry professionals are encouraged to register online through the official link: <https://register.kristaonline.com/visitor/allpackindonesia>. ALLPACK INDONESIA 2026 is open to the public daily from 10:00 AM to 7:00 PM (WIB) and will be held at Jakarta International Expo (JIExpo), Kemayoran.

Be part of celebration of ALLPACK INDONESIA and experience firsthand the innovations, technologies, and collaboration opportunities that will shape the future of the packaging and manufacturing industries in Indonesia and Southeast Asia.

## **Chinaplas® 2026** 国际橡塑展

# CHINAPLAS 2026: Quality Growth Driven by Technology, Thriving Future Powered by Green Solutions

**O**n April 21 to 24, 2026, the industry's acclaimed trade fair - CHINAPLAS 2026 will take place at National Exhibition and Convention Center (NECC) in Hongqiao, Shanghai, PR China. As one of the global leading plastics and rubber exhibitions, this edition is expected to span over 390,000 square meters across 16 exhibition halls, and bring together more than 4,600 exhibitors from around the world to showcase breakthroughs in new materials,

intelligent innovations and green transformations. The trade fair aims to strengthen the industries' upgrade towards high-end, intelligent, and green development, as well as the transition from "Made in China" to "Innovated in China".

### **Evolving with Time: Empowering New Quality Productive Forces from 3 Core Dimensions**

Amidst the accelerated revolution in technology, energy and industries

worldwide, the new quality productive forces, particularly in innovation and green low-carbon, have become crucial drivers of high-quality development. CHINAPLAS 2026 precisely captures these industry trends by gathering top global exhibitors to present cutting-edge products and solutions, thereby constructing an ecosystem of industrial innovation.

### **Breakthroughs in New Materials: Meeting the Progression Needs of Downstream Industries.**

With rapid growth in downstream sectors including new energy vehicles, low-altitude economy, aerospace, rail transportation, humanoid robotics, wind power and photovoltaics, CHINAPLAS 2026 will focus on "driving application upgrades with material innovation" and feature the renewal of advanced frontier materials. Diversified modified plastics and special thermoplastic elastomers enhance the strength and

electrical conductivity of plastics and rubber products, making them suitable for new energy vehicles' batteries and aerospace seals; high-performance engineering plastics offer resistance to both high and low-temperatures, as well as corrosion for high-end equipment; light and durable thermoplastic composites materials have become critical supporting materials for the low-altitude economy and humanoid robot industries.

**Intelligent Evolution: Opening the Door to “Smart Manufacturing Era”.** Artificial intelligence and automation technologies are restructuring the manufacturing logic of the plastics and rubber industries, accelerating their transition into the “smart manufacturing era”. At CHINAPLAS 2026, comprehensive intelligent manufacturing solutions reshaping the entire production chain will be showcased - from automated injection molding, extrusion and

blow molding production lines, to industrial IoT-driven digital management systems, intelligent inspection and quality control platforms. These advancements enable enterprises to improve production efficiency and optimize labor costs, further driving the manufacturing industry's leap from automation to intelligence.

**Green Transformation: Decoding the solutions to the “Dual Carbon” goals.** In reaching the national carbon peaking and neutrality “Dual Carbon” goals in China, green and low-carbon solutions have become the crucial factors for high-quality growth. They have also laid the pivotal path for sustainable development of plastics and rubber industries. CHINAPLAS 2026 will introduce

numerous innovative environmental and carbon reduction technologies and solutions, providing clear directions for enterprises to achieve green transformation. Efficacious boost with carbon reduction: additives produced with carbon capture technology can reduce carbon emissions during the plastic production process; Recycling: technologies in recycling oil and repurposing volatile organic compounds convert waste into valuable resources, fostering achievement of circular economy; Materials advancement: with key roles in enhancing the functionality of recycled plastics and bioplastics, the adoption of bio-based/ bio-degradable/ eco-compatible

25

coupling and toughening agents into productions empower enterprises to expand their business into the green product markets, and achieve operational transformation to streamline their compliance with environmental standards.

### Elevation in Scale and Quality, New Innovative Forces Ignite Sparks of Inspiration

CHINAPLAS 2026 not only achieves advancement in quantity, but also quality. As of now, number of booths reserved has far exceeded forecast, further expanding the exhibition area from the 2024 edition in Shanghai to a new record of over 390,000 square meters. The organizer has enriched the exhibitor spectrum by encompassing more pioneering technology companies and innovative plastics and rubber suppliers, delivering a unique experience to all visitors.

Two notable highlights of the trade fair are diversity and high quality of exhibitors. Renowned plastics and rubber enterprises

from all over the world will gather to showcase cutting-edge technologies and exchange industry visions, connecting Chinese companies to international standards. With the emergence of the power in China's innovation, more than 1,400 "Shining Niche" companies (enterprises recognized by the Chinese government in a comprehensive range of fields including economic benefits, degree of specialization and innovation, level of excellence in operation and management,

production chain, etc.) will demonstrate the unparalleled capabilities of China's plastics and rubber technologies.

Additionally, a series of concurrent events with experts are curated to unlock industry trends, promote multilateral interactions and forge high-quality development of the industries.

### Global Buyers Converge, Leading to Exceptional Industry Growth

As the "Prime Platform" for plastics and rubber companies' global expansion, CHINAPLAS has cultivated its roots in the international market for decades. It integrates industry resources, connects with the upstream and downstream sectors of the industries, and attracts premium buyers worldwide. CHINAPLAS 2025 drew 281,206 professional visitors from over 170 countries and regions, with 68,542 attendees from overseas and Hong Kong, Macau and Taiwan region of China, accounting for 24.37% of the total visitors, achieving a new

milestone in internationalization.

CHINAPLAS 2026 will further demonstrate its capacity to incorporate with global resources. The organizer is actively engaging in international events to establish partnerships with overseas associations and buyers in the industry, strategically inviting top global buyers from sectors including automotive, electronics & electric, packaging, etc. By leveraging CPS+ eMarketplace, which is CHINAPLAS's O2O strategy partner, the trade fair offers seamless "online and offline" journey - buyers can access exhibitor information and schedule on-site meetings year-round via the platform, in turn, the platform precisely matches suppliers with various sourcing requests, converting online traffic to offline business exchanges, creating infinite trade opportunities for exhibitors.

Amid ongoing uncertainties in global trade, China's plastics and rubber industries are demonstrating competitive edge through "high-quality innovation". In addition to seeking cost-effective products, international buyers are also sourcing advanced intelligent equipment and green materials from China, seizing global market opportunities fueled by the country's robust manufacturing and innovation capabilities. By engaging with China's innovation, CHINAPLAS 2026 will serve as the core gateway for the supply chain of the world's plastics and rubber industries.

### Pre-Register Now! Embark on a Journey of High Quality Industry Event

Pre-registration for CHINAPLAS 2026 has begun! Click [HERE](#) to pre-register for an admission ticket at USD 7.5. Visitors will receive an eConfirmation letter (Hong Kong/Taiwan/Macau region of China and overseas visitors) upon completion of pre-registration.

Together with all stakeholders, CHINAPLAS will keep striving for a prosperous and sustainable

future for the plastics and rubber industries with innovation and green technologies.

### About CHINAPLAS 2026

CHINAPLAS 2026 is organized by Adsale Exhibition Services Ltd., Beijing Yazhan Exhibition Services Ltd., Adsale Exhibition Services (Shanghai) Ltd., Adsale Exhibition Services (Shenzhen) Ltd. and co-organized by China National Light Industry Council - China Plastics Processing Industry Association, the Plastic Trade Association of Shanghai, and Messe Düsseldorf China Ltd. The event is also supported by various plastics and rubber associations in China and abroad.

First introduced in 1983, CHINAPLAS has been approved by UFI (The Global Association of the Exhibition Industry) as a "UFI Approved International Event". CHINAPLAS 2026 is exclusively sponsored by the Europe's Association for Plastics and Rubber Machinery Manufacturers (EUROMAP) in China for the 35th time. CHINAPLAS is currently Asia's leading plastics and rubber trade fair, and is widely recognized by the industry as one of the most influential exhibitions in the world.
